

GREEKS CAPTURE SALONICA, BUT NOT IN TIME TO PREVENT MASSACRE OF CHRISTIANS

**Awful Scenes Mark Fall of Sea-
port—Looting and Murder
General in Streets.**

(By Federal Wireless Telegraph.)

LONDON, November 9.—(Special to The Advertiser)—An uncensored dispatch received in London today by The Daily Chronicle from Constantinople, says:

"Friday, Salonica has been occupied by the Greek troops and their approach was attended by awful scenes. Before the Greeks entered the town terrorists broke loose and a terrible massacre of the non-Moslem population immediately took place. Shooting and looting were general.

"When the Greeks took possession, they imprisoned all the pashas, officials and officers. The Turks in captivity in Salonica number 27,000."

**KING GEORGE STARTS
FOR CAPTURED CITY**

(By Federal Wireless Telegraph.)
ATHENS, Greece, November 9.—(Special to The Advertiser)—King George re-

ceived Crown Prince Constantine's telegram today announcing the fall of Salonica, in Ghent, and immediately started by special train for the captured city.

Athens Celebrates.

A solemn Te Deum was celebrated in the cathedral in Athens and the streets of the Capital are filled with people singing, waving flags and cheering for Crown Prince Constantine and the army.

Details of the battle of Yeneken received here today from Volo show that 30,000 Turkish troops were engaged. Fighting lasted throughout the morning and ended in favor of the Greeks.

Two divisions of the Grecian army were swung so as to attack the Turks in the rear and this gave a decisive turn to the battle.

AUSTRIA MUST KEEP HANDS OFF

LONDON, November 10.—(By Associated Press Cable)—Premier Asquith, in an important speech at the Guildhall last night, on the occasion of the lord mayor's banquet, gave an intimation that Great Britain would oppose any intervention on the part of Austria in the settlement of peace terms between Turkey and the Balkan allies. "The victors should not be robbed of the fruits of their victories," he said, the announcement being received with great cheers. Premier Asquith was speaking for the cabinet, which had met during the afternoon.

TRIPLE ALLIANCE AND TRIPLE ENTENTE CLASH

(By Federal Wireless Telegraph.)
LONDON, November 9.—(Special to The Advertiser)—Judging from tonight's dispatches, Constantinople virtually has abandoned hope of the ability of the Turks to offer serious resistance at the Thessalonica line. If this is the case, the end of the war cannot be far distant.

The Greeks achieved the crowning feat of their campaign by occupying Salonica. The Greeks still have to capture Janina, Adrianople and Scutari also hold out, but it is reported the two principal forts outside of Adrianople have been captured.

A dispatch to the Vienna Reichspost says pour-pourcours for the surrender of Adrianople have begun.

Complications Thicken.
With the approach of the end of the war, diplomatic difficulties are becoming formidable; they are taking the form of a conflict between the Triple Alliance and the Triple entente, which may prove almost an unbearable strain on European diplomacy. The situation is so grave that a special meeting of the British cabinet was summoned today to hear the views of Sir Edward Grey, the foreign minister, as a result of his recent conferences with all the interested European representatives in London, and also to prepare for a statement on the subject which Premier Asquith is to make at the Lord Mayor's banquet in the Guildhall tonight.

Austria Hostile.
There is reason to believe that Austria has made it clear to Serbia and the Powers that she will never consent to Serbia occupying Albanian ports on the Adriatic Sea.

It is reported that the Powers have recently approached the Balkan Allies with a view of ascertaining on what terms they are preparing to accept peace. It is understood the Allies are not despatched to commit themselves, and insisted upon direct action with Turkey.

It is believed the only definite outcome of the European pour-pourcours thus far is an understanding that the Turks shall not be driven from Constantinople. One result of the conflict of the Powers over the division of the spoils has been to strengthen Turkey's determination not to appeal to the Allies for peace, but to resist to the end.

It is asserted in Vienna that the ministers of Germany and Italy in Belgrade have been instructed to declare that the Triple Alliance would regard the appearance of Serbia on the Adriatic as contrary to their interests.

AUSTRIA AND SERBIA AT DIPLOMATIC BREAK

(By Federal Wireless Telegraph.)

VIENNA, Austria, November 9.—(Special to The Advertiser)—Important negotiations have commenced between Austria and Serbia on their after-war relations which threaten to be exceedingly difficult of adjustment. The Austrian minister to Belgrade has been to Budapest, where the delegations are sitting in connection with these negotiations and has now returned to Belgrade with fresh instructions.

It is understood Austria will acquiesce in Serbia's territorial aggrandizement only if Serbia will give guarantees more binding than the ordinary commerce with Serbia will maintain permanent friendly political and economic relations with Austria.

The nature of these guarantees is not explained, but they are supposed to be for a sort of customs.

According to statements from the Ser-

vian premier, Serbia would regard a compulsory Zollverein with Austria as practically making Serbia a vassal state and therefore, not acceptable.

SAN FRANCISCO, November 9.—(Special to The Advertiser)—With sixty-nine precincts still to be heard from, the California vote tonight stands as follows: Roosevelt, 281,654; Wilson, 280,765—giving Roosevelt a plurality of 889.

TOTALS IN ILLINOIS.
(By Federal Wireless Telegraph.)
CHICAGO, Illinois, November 9.—(Special to The Advertiser)—Unofficial count of the local vote for President in Illinois shows that Woodrow Wilson obtained 407,470 votes; Roosevelt, 391,305; Taft, 256,625.

Wilson's plurality is 16,165, but he lacks 180,261 votes of a majority. Democrat in Washington.

(By Federal Wireless Telegraph.)
SEATTLE, Washington, November 9.—(Special to The Advertiser)—With seventy precincts missing, Ernest Lister (Democrat) has a lead of 935 over Gov. Marion E. Hay (Republican) in the race for Governor of Washington.

As the returns slowly come in from the scattered district late in reporting, Lister's plurality fluctuates about the 900 mark. The remaining precincts which are still to be heard from probably will not change the result materially, but it is not unlikely that the official count will be necessary to determine the result.

With seventy precincts unreported, the vote for Governor is: Lister, 95,663; Hay, 94,728; Hodge (Progressive), 76,738.

Taft Still Leads.

(By Federal Wireless Telegraph.)
BOISE, Idaho, November 9.—(Special to The Advertiser)—Late election returns show President Taft still in the lead, but only by a small majority. It is said that the districts not received will show a heavy Democratic vote and will result in placing Idaho in the Wilson column.

DES MOINES, Iowa, November 9.—(Special to The Advertiser)—According to complete returns from all counties of the State, most of them verified by county auditors, George Clark (Republican) is Governor-elect of Iowa.

(By Federal Wireless Telegraph.)

CHICAGO, Illinois, November 9.—(Special to The Advertiser)—Jack Johnson's first night in the Cook county jail, where he was confined because he was unable to give a bond for \$3000, netted him six hours' sleep. A request by the big black pugilist that he be moved to a larger cell was denied.

Because Johnson was not placed in the negro section cells while a prisoner in the county jail today caused disorder that only the steel bars prevented from becoming a mutiny and forced the jailer to remove the negro from the white department.

Johnson was much annoyed by the epithets shouted at him by other members of his race in the segregated section of cells.

In connection with the incarceration of Johnson, Mrs. Catherine Dorsey, with whom Lucille Cameron is said to have been for three weeks while in Chicago and whom the United States authorities have sought as a witness against Johnson, was arrested today and placed in jail.

To add further to the negro pugilist's troubles, it is reported today that the United States investigation of Johnson's immoral practices has only begun. Several other charges against him are to be investigated by the grand jury, it is said.

SAN FRANCISCO, November 9.—(Special to The Advertiser)—Bound for Honolulu on the steamship Manchuria, which sailed today, are a large number

of tourists who are going to the Crossroads of the Pacific to enjoy the tropical air and to get away from the more rigorous weather of the States, while there are several returning Honoluluans.

Among these latter are Paul Isenberg, prominent in the financial world of Hawaii, who is returning home after a stay of several months on the Pacific Coast, and Mr. and Mrs. Walter Macfarlane and Mr. and Mrs. Fred W. Macfarlane, prominent in society and in business in Honolulu, who left for home after a stay of less than two weeks in San Francisco.

VIENNA, Austria, November 9.—(Special to The Advertiser)—The Bulgarian army is now attacking with all its strength the remaining Turkish positions about Tehtalja, and the fall of these vital Turkish defenses in front of Constantinople is only a matter of hours, according to today's dispatches received from the Reichspost's correspondent.

The Bulgarian Second Army has penetrated far into the forest region south of Derkos Lake, preparatory to the advance on Constantinople, while the First Army is engaged against the main Turkish position east of Tehtalja. This position is not yet completely pierced, but the end of the Turkish resistance appears to be in sight.

The raw Turkish troops, large numbers of whom rushed from Constantinople to meet the enemy's advance, are fighting strongly, but the exhausted veterans in the earlier battles are offering little serious resistance.

AS PRESIDENT, WILSON MAY PAY A VISIT TO TERRITORY

**Plans Also to Journey to Philippines on Warship
During Time of Panama-Pacific
Exposition.**

(By Federal Wireless Telegraph.)

PRINCETON, New Jersey, November 10.—(Special to The Advertiser)—Among the thousands of communications and suggestions received by President-elect Woodrow Wilson since last Tuesday are many having reference to future appointments and the attitude of the coming administration towards the Pacific Territories of Hawaii and the Philippine Islands.

To all suggestions and advice the President-elect has turned a courteous but diplomatically deaf ear. He has determined to give himself and the country a rest from politics until the time appears when he will have to face the problems of cabinet-making and prepare for actual work of executive control, following the inauguration next March in Washington.

In a brief conversation with a representative of The Pacific Commercial Advertiser, he made it quite clear that any announcement of his intentions, until he takes the lid off his own voice, will be absolutely unauthorized and purely speculative. His secretaries are filing recommendations and suggestions for perusal after Wilson returns from his holiday, the plans for which have been kept under cover so as to assure privacy and peace.

At the same time this may be predicted with every warrant of certainty: Wilson will go slowly in any change which he may make in the Hawaiian and Philippine Islands matters, concerning which the President of the United States has direct authority. He has shown a deep interest in the Pacific Isles, and has talked about Manila and Honolulu to many of his personal friends.

Your correspondent believes that unless an international affair renders such a step impolitic, Honolulu and Manila may look forward to the pleasure for the first time of welcoming a President of the Democratic administration. President Taft planned to make this trip after attending the Panama-Pacific Exposition in San Francisco.

Mr. Wilson's friends say he will most likely do so, in order to see with his own eyes how the Pacific islands are progressing, traveling on a United States warship and remaining in constant communication with Washington by the wireless service, which will then be in full ocean-wide operation.

CHICO, California, November 10.—(Special to The Advertiser)—"I am the second cousin of Governor Woodrow Wilson of New Jersey, and I went to Princeton University with him in bygone days, but the only satisfaction I get is that there is at least a good strain of blood in me, even though I am cow-punching and doing other odd things for a living," said Harry G. Wilson, of this city, this morning, when visiting with a number of his Chico friends and discussing the election of Woodrow Wilson to the presidential chair.

The Governor's cousin has been known for the last quarter of a century in Chico by the name "Hayseed" Wilson, few knowing his true name. That sobriquet was given him in the early days of baseball in the Sacramento Valley, when he played with the Chico team and was regarded as the greatest first-baseman in the business.

Wilson went to Princeton University with Woodrow Wilson, and for several years was his companion and chum. "Hayseed" Wilson studied for the ministry, while his second cousin just studied. They each had ambitions and looked forward to a great future but today one is cow-punching and the other is soon to become the Nation's Chief Executive.

LONDON, November 10.—(Special to The Advertiser)—The launching of the Iron Duke from Portsmouth marks a new era in British naval construction. The vessel is the twenty-ninth British dreadnought to take the water. Her displacement is 26,000 tons, and her main battery consists of ten 13.5-inch guns, firing shells of 1400 pounds, or 150 pounds more than the projectiles fired by former weapons of this caliber.

The chief feature, however, of the new dreadnought is the improvement against submarine attack over the whole length of the "vitals" from the first turret to the last.

The hull of the ship consists of three separate skins so that even if the outer ones should be pierced by rocks or torpedoes, the speed of the vessel would not be impaired.

NEW YORK, November 10.—(Special to The Advertiser)—A. Wendell Jackson, the United States citizen who induced Charles Birch Crisp to finance the Republican government of China without the guarantees demanded by the six Powers group of bankers, arrived in New York from London, yesterday.

Jackson said after a conference with United States bankers in New York who want to participate in the new loan that he will continue across the continent and return to Peking to discuss administrative matters with President Yuan Shih-Kai and Dr. Sun Yat Sen.

He predicts a great awakening of the Chinese trade, and believes the way now open for a great intercourse of commerce from China and the Pacific seaboard of the United States via Honolulu, "The Key of the Orient."

WASHINGTON, November 10.—(Special to The Advertiser)—The navy board plans to increase the coal plant in Pearl Harbor to 200,000 tons capacity by increasing the height of the walls. Provision is also made for an increase of the liquid fuel capacity, which is estimated in the original plans at 800,000 gallons of gasoline.

POWERS TAKING POSSESSION OF CITY

(By Percival London.)

CONSTANTINOPLE, November 10.—(Special to The Advertiser)—Orders were received by the foreign naval commanders now here to be ready to land marines and bluejackets at a moment's notice.

It is rumored that the Great European Powers have decided to ignore the feelings of both Turkey and the Balkan Mountain States Allies and to occupy Constantinople, in order to safeguard the city against a reign of terror. The Cabinet Ministers are in terror, and two newspapers—the Yeni Gazette and the Tanin—have been suppressed for inciting to violence.

The Committee of Union and Progress accuse the Cabinet Ministers of cowardice while the army is said to be in the hands of officers who only wait an opportunity of overthrowing the Sultan Muhammed as Abdul Hamid was deposed. Rioting and looting is proceeding in the city, the situation is desperate.

PREACH HOLY WAR.

(By Federal Wireless Telegraph.)

LONDON, November 10.—(Special to The Advertiser)—Late reports received from Sofia and Constantinople agree that the Turkish armies at Adrianople and in the Thessalonica are still offering desperate resistance, but the Bulgarians are steadily reducing the forts to a point when the capitulation of the principal citadel of Thrace and the Turkish capital is only a question of time.

SULTAN MUHAMMED V.
Who may be deposed by his army.

The ulamas sent by the Sheik U Islam to preach a holy war among the soldiers defending the last ramparts of Turkey in Europe have been received without any great show of enthusiasm, as the lack of a commissariat disgusts the generals and soldiers.

The latter are without rations, except such as foraging parties succeed in securing from the suburbs of Stamboul. Nazim Pasha, commander-in-chief of the Turkish army, declared to day that if the ministers in Constantinople make any overtures to the Allies or to the Great Powers, he will continue fighting for the honor of Turkey, relying upon the loyalty of his troops to support him.

Neither Germany nor Austria has made any reply as yet to the announcement from London and St. Petersburg that the Triple Alliance entente will support the Allies in retention of territory won by force of their arms.

Germany and Austria are quietly mobilizing their troops. The British army and navy are on a war footing, prepared for any eventuality.

LONDON, November 10.—(Special to The Advertiser)—An incident which occurred while the King was shooting recently on the

Hon. John Ward's preserves in Woolley shows the monarch shares with many other persons the superstition about number thirteen. The King noted the eleven number and would not sit down until Donald Harding, the acting agent on the estate, was called in to make the number fourteen.

WASHINGTON, November 10.—(Special to The Advertiser)—The great fourteen-inch wire-wound guns to guard Pearl Harbor, in Honolulu, in Manila and in the Panama Canal zone are more than up to the estimated war valuation of the expert ordnance constructors who have been engaged for months in perfecting the first models.

The test in the Sandy Hook (New Jersey) proving grounds have convinced Brig. Gen. William Crozier, chief of ordnance, that the new weapons will render the insular and canal fortifications as impregnable as human ingenuity can attain. The experts say no fleet could stand up against the warm reception these wire-wound barkers will be able to give an enemy.

WASHINGTON, November 10.—(Special to The Advertiser)—William Jennings Bryan has arrived in Washington and he will spend all next week conferring with political leaders preparatory to the official commencement of the coming Democratic era. Colonel Bryan will visit President-elect Woodrow Wilson before going to his winter home in Florida.

It is predicted here that while Mr. Bryan may not be within Wilson's cabinet, his influence will be considerable during the first Democratic administration of sixteen years.

WASHINGTON, November 10.—(Special to The Advertiser)—The Hawaiian Shippo, which stood by the planters in the big strike of four years ago, has been singled out for attack by both the Hawaiian Japanese Chronicle and the Nippu Jiji. Mr. Sheba, the editor, is charged with having sold out to the planters at the time of the strike and other efforts are being made to discredit him, one of these being a mass meeting held in Asahi Theater one day last week for the purpose of denouncing him.

It is understood that the meeting fell flat as far as its object was concerned and that Sheba has the unqualified support of all the better element of the Japanese. In speaking of the fight being waged against him, Mr. Sheba said yesterday:

"They are going back four years in an effort to find something upon which to assail me. At the time of and during the strike I stood by the planters because I believed the strike was not justified. I lost quite a bit of money during that period, and when the strike was over the planters made good the deficit. I have never denied it; but that doesn't mean that I was bought."

"I think I know what the plans of my opponents are as well as they know themselves, and when the opportune time arrives I shall have much to say. They can't get me out of the way."

Members of the I. W. W. have been drifting into Honolulu by twos and threes from the mainland for several weeks, and have already applied to the supervisors for permission to use Ala Park for a mass meeting and to speak in the streets.

Harry Vincent of Honolulu has arrived at Lihue, Kauai, to take charge of the new wireless station there.

James Lynch of Honolulu visited Maui last week.
